

COMPANY OVERVIEW

Code Bridge Agency is a custom software development and cybersecurity firm specialising in enterprise-grade web applications, client portals, SaaS platforms, internal operations tools, AI feature integration, and security audits.

We take on a limited number of engagements each year. Every project is led by a certified senior engineer, not delegated to juniors. You speak directly to the person building your product.

04. System Architecture & Cloud Infrastructure (NAICS 541512)

AWS/GCP design, database optimisation, CI/CD, containerisation

05. Business Process Automation (NAICS 541511)

Client onboarding automation, CRM/ERP integrations, internal tools

06. Data Engineering & Analytics (NAICS 541511)

ETL pipelines, analytics dashboards, revenue attribution systems

DIFFERENTIATORS

- Security-first engineering: CEH-certified methodology applied throughout the SDLC
- Fixed-price, fixed-scope contracting: all costs agreed before work begins
- Senior-level delivery: no junior-only execution, no bait-and-switch staffing
- Full-stack accountability: architecture through deployment under one contract
- Documentation-complete handovers: all deliverables fully documented
- Clutch verified rating: 4.8/5.0 from client reviews
